H. L. HARTMYER, BOOK AND JOB PRINTER.
1882.

LANCASTER, PA., MAY 16TH, 1882.

In presenting the catalogue of the Rohrer Collection, I desire to call attention to the uniform fineness of the pieces composing it. Where all are in so choice a condition, it is difficult to select any particular pieces for special mention but the following appear to deserve a little extra notice on account of their rarity or exceptional fineness: 1793 Chain Ameri Cent, 1836, 1840 to 1848 Half Cents, 1858 Dollar, 1796 Half Dollar, Vermont Immune, Set of 1873 Pattern Trade Dollars, Grant and Sherman 15 Cent Notes, etc.

Mr. Rohrer was an enthusiastic numismatist during the four or five years spent in getting his fine collection together and spared nothing to improve his pieces whenever opportunities of doing so were offered and collectors purchasing from this catalogue will not be disappointed as to the fine and choice condition of anything they may secure.

Thanking all for past patronage and hoping to receive many bids for present sale, I remain, yours truly,

CHAS. STEIGERWALT,
No. 130 East King Street, Lancaster, Pa.

CATALOGUE.

The closing numbers referring to size are according to the American scale of sixteenths of an inch. Bids are to be considered as so much for each piece in lot, except where set is mentioned.

UNITED STATES CENTS.

The 1793 Cents are catalogued according to Frossard's "Monograph of U. S. Cents and Half Cents," and the 1794's according to Dr. Maris' work on the coinage of that year.

- 375 1 1793 Chain Ameri. F. No. 1. A beautiful specimen of this rare variety. Almost uncirculated, the masses of the hair near ear barely touched. The only defects are a very slight scratch from L in Liberty to bottom of hair and seven minute nicks, one on cheek and six on hair and a slight roughness of field between the chain and States on the reverse. A strong impression, the date very sharp and of a beautiful, even light steel color. Extremely rare in this condition. Cost \$50.
- 1375 2 1793 Chain America. F. No. 2. Dot after Liberty and date. A very strong impression and slightly finer than the last, the hair only very slightly worn, the obverse having been protected by an unusually strong milling. An even clean surface and brown color. Very rare so fine.
- 610 3 1793 Chain America. F. No. 3. No dot after Liberty or date. A fine, strong impression, much better than usually found. A brown colored cent but appears to have been brightened years ago and to be regaining a good color, very rare.
- 350 4 1793 Wreath. F. No. 4. Broad head and leaves. The lower part of the date is slightly weak but the rest of the impression on obverse and reverse is fine, light olive color, rare.
- 285 5 1793 Wreath. F. No. 5. Still broader head, very good, rare.
- 400 6 1793 Wreath. F. No. 7., 2nd rev. Fine and rare.
- 350 7 1793 Wreath. F. No. 8. Very good or fine, rare variety.
- 405 8 1793 Wreath. F. No. 9. Fine, even, dark steel color, rare.
- 1310 9 1793 Liberty Cap. F. No. 11. An excellent specimen of this rare variety, very fine, the beaded milling complete on both obverse and reverse, the head but little worn and date sharp, dark brown color, very rare.
- 160 10 1794 Maris No. 2. Double Chin. The lower part of date weak but otherwise a nearly fine, brown colored cent, the head which closely resembles the 1793 is but little worn, rare variety.
- 102 11 1794 Maris No. 3. Sans Milling, very good, nearly fine.
- 105 12 1794 Maris No. 4. Young Head, date weak, otherwise nearly fine.
- 255 13 1794 Maris No. 10. Pyramidal Head, fine, rare variety.
- 205 14 1794 Maris No. 11. Many Haired, fine, light brown.
- 410 15 1794 Maris No. 12. Scarred Head, barely touched by circulation,

the masses of the hair only very slightly worn near ear and of a fine light olive color. Extremely rare in this condition.

- 205- 16 1794 Maris No. 13. Standless 4, very fine, brown color.
 100- 17 1794 Maris No. 17. The Ornate, a fine strong cent but little worn and of an even dark color.
 • 18 1794 Maris No. 20. Fallen 4, a fine, clean cent of dark brown color.
 150- 19 1794 Maris No. 21. Short Bust, a very fine, steel colored cent.
 130- 20 1794 Maris No. 22. Short Bust, struck before the die cracked, very fine, brown color.
 110 21 1794 Maris No. 22. Short bust, same as last but showing the break in die, fine, brown color.
 70 22 1794 Maris No. 26. Amiable Face, an extra good or fine cent of light brown color.
 60 23 1794 Maris No. 28. Large planchet, very good, nearly fine.
 70- 24 1794 Maris No. 29. Marred Field, a very fine, steel colored cent showing but little circulation.
 152 25 1794 Maris No. 32. Shielded Hair, fine, dark brown.
 405 26 1794 Maris No. 35. The Plicæ, the edge inscribed ONE HUNDRED A DOLLAR, very fine.
 30 27 1794 Maris No. 35. The Plicæ, very good.
 " 28 1794 Maris No. 38. Roman Plicæ, very good.
 200 29 1794 Maris No. 39. Head of 1795, a fine, clean, brown colored cent.
 " 30 1795 Thick Planchet. 5 of date merging with bust, an extra good strong cent, considerably better than usually found and fine for this variety.
 870 31 1795 Thick Planchet. 5 just touching bust, break in die making a hyphen between R and T of Liberty. A fine dark olive cent but I think the same remarks applied to lot 3 would be equally applicable to this piece.
 505 32 1795 Thin Planchet. One Cent in centre of wreath, uncirculated, light olive. The obverse sharp, the hair unworn, but the One Cent in centre of reverse is slightly weak, the die being defective at that point. Extremely rare so fine and a desirable piece for any cabinet.
 105 33 1795 Thin Planchet. One Cent high in wreath, extra good or fine and of light color.
 110 34 1795 Thin Planchet. This piece, a fine dark brown cent, has been struck twice, the date and point of bust appearing again before the face, but rest of second impression showing but slightly. Quite an oddity.
 100 35 1795 Jefferson Head. A very good, nearly fine specimen of this extremely rare cent, the head not much worn. This piece appears to have been brightened at some remote period and has regained a reasonably good color. It is one of the best impressions of this variety that I have seen.
 100 36 1796 Liberty Cap. Fine, dark brown.
 100 37 1796 Fillet Head. Uncirculated and perfect except a trifling pin scratch about $\frac{3}{8}$ of an inch long in field back of head which mars the piece but little. Light olive and a sharp impression. This piece bought with lots 3, 31 and 35, may have gone through the same process as those lots, but if so it is entirely uninjured. I do not think it has ever been touched with a brush, an opinion concurred in by a number of collectors to whom I have shown the piece, though a few finding it in bad company have disputed this fact.
 110 38 1796 Fillet Head. Variety from last, fine, though the reverse shows one or two small spots of corrosion, even greenish brown color.

- 39 1796 Fillet Head. LIBERTY variety, very good, though the obverse shows a few spots of corrosion.
 40 1797 Fine, strong impression.
 41 1797 Very good, nearly fine, variety from last.
 42 1798 Large date, very good, scarce variety.
 43 1798 Very wide date, wide milling, good or very good, rare variety.
 44 1799 A very good, nearly fine specimen of this rare date, the eye and nearly all the hair lines showing on the head and part of the edge showing milling, the date is very good and shows knols to both 9's nicely, the reverse being very fine. The obverse is of a good brown color but has been slightly corroded and rubbed with honey stone giving it a peculiar smoothed appearance. It is, however, a very desirable piece and was purchased by Mr. R. at a New York sale for \$20.
 45 1800 Perfect date. Very good, nearly fine, nearly all the hair lines showing.
 46 1800 Variety showing dot in first cipher, extra good or fine, brown color.
 47 1800 Variety over '99, very good, dark brown.
 48 1801 Very good, nearly fine, brown color.
 49 1801 Variety with 1-000, fine, brown color.
 50 1801 Variety with three wrinkles before face, very good, brown color.
 51 1802 Uncirculated, a very desirable piece of fine dark olive color.
 52 1802 Fine, chocolate color.
 53 1802 Variety without stems to wreath, fine except Liberty on obverse which is not strongly struck.
 54 1803 Extremely fine, showing only the slightest traces of circulation, strong milling all around both obverse and reverse, something unusual in this date, fine light brown color.
 55 1803 Equal or better than last, the milling has more of a beaded appearance, hair slightly rubbed above ear, otherwise uncirculated and of a clean brown color.
 56 1804 Broken die, very fine, showing but little circulation but somewhat dark in color. A desirable piece, rare in this condition and cost \$20.
 57 1804 Perfect die, very good or for this date, fine, the eye and nearly all the hair lines showing.
 58 1805 Trifling nick on edge, otherwise very fine, the hair only slightly worn, brown color.

 73 1814 Plain 4, uncirculated and of an even fine dark brown color.
 74 1814 Crossed 4. A sharp, beautiful uncirculated cent of light brown

color. Perhaps not strictly well centered but one of the best pieces of this date I have ever seen.

- 89 1824 over '23 Very good, considerably better than usually found.
- 90 1825 Very good, strong impression.
- 91 1826 But very slightly circulated and of a fine orange red color, almost approaching brightness, rare in this condition.
- 92 1827 Only the very slightest traces of circulation, but little more than cabinet friction. The obverse is only a shade from a bright red, the reverse being in that condition, rare so fine.
- 93 1827 Variety from last, very fine, olive color and strong milling.
- 94 1828 Large date. The hair and stars only very slightly worn, fine surface and of light olive color.
- 95 1828 Small date. Not quite equal to last but fine and of light color.
- 96 1829 Very nearly or quite uncirculated, splendid surface and good brown color, rare in this condition.
- 97 1830 Only a few slight traces of circulation and of an even reddish brown color approaching brightness.
- 98 1830 Variety with line between milling and stars, very fine, brown color.
- 99 1831 Bright red though I think an attempt has been made to clean the piece with acid, uncirculated though not a sharp impression in all portions.

The following lots with the exception of the 1842 and 1847 have all been slightly brightened by gentle brushing. This process has not, however, apparently injured them in the least.
